5. Culturable unoccupied Padtar land...	169229-38	166419-38	-2810

23. The above statistics show that there is an increase of 571-29 acres in the total area of occupied cultutable land, and decrease of 2810 acres in the Padtar land.

24. It will be seen from the above figures that out of the total of 195611-22 acres of occupied Talpad land, acres 114236-36 Gunthas were actually cultivated during the year and acres 81374-23 Gunthas or nearly 1/3rd remained uncultivated owing to deficient rainfall.

The total land revenue realized during the year under report comes to Rs. 199057-14-5 against Rs. 406509-15-10 of the last year. Customs collections.

29. The revenue of customs amounted to Rs. 83021-13-0 against Rs. 118178-14-2. The decrease of Rs. 35157-1-2 is due to the bad season.

Crops.

60. The scanty rain fall in all the State villages resulted in complete failure of the Ashada crops as well as deficiency of fodder. The cultivators had to raise fodder by well irrigation in most of the villages. The wheat, rapeseed and cotton crops

raised by cultivators in the District by the late fall of rain were damaged by frost to the utter disappointment of and great loss to the cultivators.

Prices of staple food.

61. During the year under report the prices of the staple food were as shown in appendix XVIII. The rates are slightly higher than the previous year owing to less production and small outturn of new crops due to the deficiency of rain. Fodder was scarce in the latter part of the year and its rates remained very high.

Garden and Plantation.

62. As stated in the previous year there are no natural forests in the State. Gardens and Plantations are maintained. The total number of these remained the same i. e-14 and 11 respectively. Flowers, fruits and trees thrive well in these gardens. There are 4 plantations of Babul trees 3 of Nimb trees, 1 of Gundi trees and 3 contain different kinds of trees. No new trees were planted by the Forest Department during the year on the contrary nearly 1191 trees perished owing to bad water due to the partial failure of rain. The Revenue Department planted 240 trees in the commencement of the year, but none remained alive at the end owing to the same cause,

Trade.

The total value of export and import being Rs. 1059441-5-9 and Rs. 579992-4-11 respectively against Rs. 1179070-15-0 and Rs. 713902-0-5 in the previous year. The decrease in both the items is mainly due to the unfavourable season.

Ginning factories & cotton Press

64. As stated in past reports the number of ginning factories remained the same i. e. 3, 1 at Sami, I at Lolada and I at Munjpur. They worked for 143,92 and 183 days during the year and cleared 120596-9, 46849-5½ and 203620 maunds of cotton respectively.

The permission to set up a new ginning factory at Sami is granted to Sayad Allabux of Sami but owing to the condition of the year having turned quite unsatisfactory he could not erect the same during the year, but it is expected to start working next season.

The cotton press worked during the year for 57 days and 7297 bales of 69321 maunds of cotton were issued. One anna per bale is levied on each bale of 10 maunds as State Royalty. Two out side merchants had settled in Sami during the last cotton season in the first year of the working of the press, and more merchants from outside, as they come to know, are sure to be induced to settle in Sami in future, and thus the desire of His Highness to encourage and flourish trade and to ameliorate the condition of the subjects will, it is expected, be fulfilled in very near future. As stated in the previous year's report, His Highness, to encourage

the trade of Sami and to induce the outside merchants to cart their cotton in our State for ginning purposes has reduced the State cotton duty usually levied on outside cotton from 0-1-6 to 0-0-6 during the year under report.

Public work.

65. Appendix XIX. shows the expenditure on P. W. D. No new work was carried out during the year under report but necessary repairs to several buildings were done. The outstanding bills of the previous year were adjusted during the year under report.

Boring work.

66. His Highness to improve the supply of water which is very scarce in some of the villages, purchased one Masto Patent Boring Machine last year. It was first set up near Fatehcote. On boring upto 32 ft. the soil was found to be sandy and the water very saltish, but as the hole was bored deeper, the water was found sweet and the soil rocky. The rock on being roughly examined and tested was found to contain traces of gold. The pieces obtained from 100 ft depth seemed to contain more gold, and it is expected that the spot may turn up to be a basis for working Goldmine.

The machine being only of 200 ft capacity and lining pipes not being obtainable from Bombay marts, further boring below the depth of 133 ft had to be stopped.

One small hand boring machine has been made locally which gives satisfactory results in boring kacha-wells.

If this machine be used in the present existing wells it is expected to do some good to the cultivators of certain villages, which His Highness has already comtemplated and enquiries are being made to begin the work in the beginning of the season in the villages of this State. It is expected to yield satisfactory results.

Excise shops.

70. Appendix XXI shows the number of excise shops and the revenue derived therefrom. The number of liquor shops was 22. of Bhang and Ganja 2, and of opium 14

71. Grass:- Owing to want of good rain there was no new grass in the State Bids except in one at Dhadhana. where the grass was fit to be cut. It was as usual managed by the Revenue Department

Grass.

72. Storage of grass-:-is attended to to a certain extent and the little that was done went a great way towards meeting the great scarcity caused by deficiency of rains during the year. More efforts must needs be made to have a perfect system of storing of grass.

Storage of grass.

73. As stated in previous reports the question of railway which is of paramount importance for the welfare of this country has yet not come to a final decision. It is most earnestly hoped that the necessary sanction is soon accorded to connect this isolated fertile country at an early convenient opportunity with the broad gauge at Viramgam.

CONCLUSION.

The year closes undoubtedly in the midst of anxieties all round due to the Great War and to the great Scarcity bordering on Famine in these parts. The war is still raging with full force though sure signs, clearer and clearer every day, unmistakably show that it must end in complete victory of the Great British Empire and its allies. All India has fully risen to the occasion and today stands as loyal and devoted to and as unflagging and unflinching as ever in its endeavours to stand by the Government with all its resources of men and money. Prayers daily go forth from every home in India to the Almighty providence to grant full and complete victory to the Allied forces crushing the wanton Prussian militarism for all time in future and ensuring the World's peace for ever and for ever.

The anxieties caused by exceeding Scarcity that prevailed in these parts during the year were no less. It was only four years ago that this State, along with many other parts, was visited by a great famine. There was scarcely breathing time left before we were frightened by another visitation of a like sort which looked quite imminent in the beginning. A late fall of rain however saved the situation from becoming quite serious; and late crops gave promise of a fairly good harvest which undoubtedly we were on the point of having but for the unfortunate frost that appeared later on and damaged the crops to a very great extent. The year was thus one of great scarcity though not quite of famine. But it told most seriously on the general situation as a famine had only visited here four years ago. His Highness saw the situation and, with great resourcefulness of mind, atonce took measures to meet it in watever direction he could. His Highness cut down to a great extent his own private establishment and reduced expenditure in others. He also disposed of many articles, animals, and gave strict orders to practise

economy all round. It was only His Highness' firm resolve that saved the State from a further burden of Government loan and helped the administrative machinery to just pull through the year; and it is fervently hoped that, after all that we have endured during the closing year, the new year brings in better prospects and enables us to recoup the strength we have had to lose during the year under report.

The increase in the number of the Khalsa villages is due to the following reasons.

The four villages of Radhanpur & Sami were taken as depopulated in the previous year's report; but the lands under them being cultivated by the cultivators of the surrounding villages on the vighoti system as in other villages, they are now classed as Khalsa villages and mentioned as such during the current year.

The Vachhda Pung Bet has not its lands cultivated, and does not bring land revenue but the revenue from the sale proceeds of wood, stones as also grazing fees and other such miscellaneous items are realized from them.

Division of Mahals,

The cause of the decrease in occupied culturable land is mainly due to the preceeding year of scarcity which has affected the condition of the cultivators though partially also due to some lands being relinquished owing to being saltish.

25. It will be also seen from the above figures that out of the total of acres 192867-3 gunthas of Talpad occupied land, acres 150916-32 gunthas were actually cultivated during the year and 41590-11 remained padtar i. e. more padtar land was brought under plough during the year than in the previous year.

The railway communication being away at a distance of 14 miles from Radhanpur, a great difficulty is usually experienced in carting the luggage and the trade is more or less handicapped. With a view to overcome this difficulty and to create more facility for the public and especially for traders a contract has been given to a Company to cart all luggage between Harij & Sami & Radhanpur at fixed rates at the instance of His Highness the Nawab Saheb with a view to induce traders to undertake new trades and new business.

Dasara Exibition & Cattle Show,

72 The State feels more and more keenly the want of Railway Communication. But it is very satisfactory to note that matters have progressed a good deal and there are the assured prospects of the Railaway between Radhanpur & Viramgam being realized soon after the war has ended. So also a final settlement of the question of an extension of the Railway from Harij to Sami by the Baroda Darbar is hopefully awaited.

1. Land Revenue:– The increase of Rs. 126735 is due to the recovery of arrears of the preceding year Vighoti.

18. Miscellaneous:– The decrease of Rs. 57327–13–1 is due to less payment of advances &c during the year under report.

The foregoing year being one of great scarcity, it was a very serious problem for us how to get through without being put to the most unpleasant necessity of asking a further Loan from the Goverment and make the two ends meet. It was a time of great anxiety and we were completely at a loss what to do. His Highness was re olute in his determination not to worry Government during these times of tremendous stress for them owing to the War for a further Loan, as also not to incur fresh burden on the State resources. His Highness insisted that economy should be practised wherever possible and find out other means to get through the year without increasing our liabilities Thanks to the stern resolution and firm insistence of His Highness and his guidance and directions, we managed to do without a further Loan and got through the year without creating further burden of debt on the State by enforcing economy wherever possible and by tapping available resource His Highness greatly solved the difficulty for us by himself reducing his own comforts and going to the length of even selling superfluous ornaments in the State which is always a most unpleasant method to a Ruler under any circumstances.

CHAPTER VI–Medical Service.

Medical statistics,

The total expenditure amounted to Rs 12272–5–7 against Rs. 8961–11–5 in the previous year. The increase in the year is due to the adjustments of pay bills which were in arrears.

The number of patients treated.

This year seven students were sent for the Matriculation examination out of which only one passed. But there was a general outcry against the Matriculation results for the year and the stiffness of the examinations certain papers accounts for the result.

As in the previous years students of all local schools were assembled in the Rajgadhi on the most auspicious occasion of His Highness' birthday and a rupee was awarded to each as a prize with sugarcandy. The little boys and girls always enjoy and appreciate this liberality of His Highness.

With a view to meet the deficiency of trained teachers in primary schools and to improve the status of education, His Highness the Nawab Saheb awarded two scholarships to two teachers to prosecute their studies in the Training College at Ahmedabad.

Every effort is thus being made to improve the tone of education and to educate the people of this State.

No new schools could be opened during the year in spite of a strong desire of His Highnes owing to past years scarcity due to the failure of rains. I am however glad to note that His Highness is going to make due provision for opening 2 new primary schools in the district and an English school in Sami early during the ensuing year. As usual His Highness has throughout continued taking an ever-increasing interest in the subject of the education of his subjects and has always readily and generously sanctioned educational proposals.

There is one thing which I specially wish to note and it is that the discipline and general tone of the high and other schools has vastly improved. More attendence, more regularity, more discipline is being seen every where.

CONCLUSION.

This Report cannot be concluded without my most respectfully acknowledging on my own behalf and behalf of all the Heads of Departments the ever kind and generous treatment, wise guidance, ~~and~~ and most useful supervision and direction that we all invariably throughout the year have ~~and~~ had from His Highness. It is mainly due to His Highness' guidance and firm resolution that we could manage to carry out the Departmental work without adding fresh burden to the resources of the State during years of scarcity. Whatever advancement and progress slow but sure-that is being made in education and other matters would have been impossible but for the guiding supervision and ready sanctioning of necessary proposals by His Highness His Highness' anxiety too to help in every way all measures taken by Government towards winning victory in the present World-War has been as keen as ever and has proved ~~a~~ a great stimulus to all of us.

15. Lack of any spirit in the direction, home-keeping tendency among the generality of people and self sufficiency are the causes which baffled attempts for enlistment.

The Anath Ashram or Mohobat Villas.

17. As stated in the previous year's report advantage of this charitable Institution was not taken as freely as it ought to be partly owing to the ignorance of the people and partly owing to the conditions of the year being satisfactory. There are 7 persons in the Ashram who are regularly fed and looked after.

Dasera Exhibition & Horse & Cattle Show.

18. It having been noticed by His Highness that the renowned breed of horses and cows was going off and was partially lost and if the question were not timely attended to it would totally disappear. His Highness with a view to stimulate and encourage the breed of horses and cows, as also to improve the condition of the agricultural and Industrial classes and to put them on a better status ordered to hold an Agricultural and Industrial Exhibition and Cattle and Horse Show every year on Dasera Holidays.

It is being held every year for these 4 years and gives great hopes of turning out a very useful and interesting Institution in course of time. People are learning to take interest and participate in the Institution with great zeal. It is still in the nature of a helping yet.

During the last show 60 horses 23 cows, 10 buffaloes, 16 bullocks and 6 bulls were exhibited by the people of the State and the surrounding Agency districts. This is a poor Show no doubt but it is a promising one for a beginning. It is the much cherished wish of His Highness to do all that is possible to make this annual Institution as successful and popular and bring to a high level as is possible in proportion to the resources of the State. The beginning at any rate is very promising and in course of time it is found to fulfil the best hopes of His Highness.

Villages under Khalsa Revenue Vahivat and those held by Bhayats and the alienees.

20. As stated in the previous year's report there are 171 villages, including one depopulated in the State and they are divided into 5 Mahals. Out of these, 150 are under State Khalsa Vahivat 14 held by Bhayats, 5 by Inamdars and 2 by Dharmada holders.

Vachhada Pung Bet.

21. The Vachhada Pung Bet is a desolute place and yields no land revenue but the sources of revenue consist of certain minor items such as sale proceeds of wood stones grazing fee etc,

Vahivat based on practice.

22. The Administration of land is carried on according to vahivat or practice regulated by rules, orders and circulars issued from time to time as circumstances required.

System of collection of land revenue.

23. The system of Bhag Bati yet continues in the two villages of Sherganj and Kolahpur, but it is intended to introduce the cash system in these two villages soon.

Survey and classification

24. As stated in the previous year's report no Khalsa village now remains unsurveyed. The survey work of the village Vijaynagar was contemplated during the year under report.

Boundary disputes.

25. There were 26 cases of dispute relating to boundaries with villages of foreign Jurisdiction and six cases of boundary dispute between the villages of the State, pending for disposal at the commencement of the year. One new case relating to the boundary dispute between Dudka and Chadiana was filed during the year under report. Out of these 33 cases, 3 were disposed of leaving a balance of 30 cases pending for disposal at the close of the year.

Of these 30 cases, 24 are under inquiries with the Simada Kamdar and 6 cases of internal boundary dispute pending in the office of the revenue Adhikari.

26. The following table gives the total area of land culturable land &c of villages under khalsa Vahivat.

Particulars.	1916–17 Acres.	1917–18 Acres.	Increase or decrease.
1. Total lands	469451–34	469451–34	0—0
2. Less Kharabo	40804–12	40789–20	–14–32
3. Balance of culturable lands ...

(b) Pasaita	66544–31	66406–30	–138–1
Total ...	428647–22	428662–14	+14–32
4. Area under occupation			
(a) Talpad			
1 Under actual cultivation ...	150916–32	162264–27	+11347–35
2 Padtar	41950–11	33736–31	–8213–20
Total ...	192867–3	196001–18	+3134–15
(b) Pasaita			
1. Under actual cultivation ...	45128–12	47348–32	+2220–20
2. Padtar	21416–19	19057–38	–2358–21
Total ...	66544–31	66406–30	–138–1
Grand Total ...	259411–33	262408–7	+2996–14
5. Culturable unoccupied Padtar land...	169235–29	166254–6	–2981–23

27. From the above statistics it is seen that there is an increase of 2996–14 Gunthas in the total area of occupied culturable land and a decrease of 2981–23 gunthas in the Padtar land. The cause of the increase in occupied culturable land is mainly due to the satisfactory conditions of the year.

It will be also seen from the above figures that out of the total of acres 196001–18 Gunthas of Talpad occupied land, acres 162264–27 gunthas were actually cultivated during the year and 33736–31 acres remained padtar. This means that more Padtar land was brought under cultivation during the year than in the previous year.

28. As mentioned in the past year's report there are 21 Bhayati, Inami and other alienated villages. These villages have 32683 acres of cultivated land and 15523 acres of culturable padtar land, making a total of 48206 acres of culturable land and 16174 acres of culturable padter land, aggregating to 48206 acres of land of the previous year. The increase in the cultivated land is comparatively due to the gradual improvement in the condition of agriculturists.

29. The Bhayati villages yielded a total revenue of Rs. 103928-8-8 while the total revenue of Inami and Dharmada villages came to Rs 16176-2-0 during the year under report as compared with Rs. 62836-3-8 and Rs. 10420-3-0 respectively of the last year. The reason for the increase in the revenue is due to the satisfactory outturn of cotton as also to high prices.

30 The amount of Rs. 276838-12-8 was recovered on account of land revenue from khalsa villages out of the demand of the year under report whereas a sum of Rs. 113664-10-3 was recovered towards arrears of past years thus making a total recovery of Rs. 390503-6-11 as against Rs. 193511-7-7 of the last year's demand and Rs, 137973-8-5 towards arrears, aggregating to Rs. 331485-0-0 of the preceding year.

Customs collections.

31. The revenue from Customs realized during the year under report totalled Rs. 126689-3-3 against Rs. 33321-4-11 of the previous year. The increase in the revenue of customs is primarily attributable to the good outturn of the Rabi crop during the year under report.

Customs duty.

32. Customs duty is levied in the State on the export and import of certain articles. The question of introducing Local cess throughout the State is yet under consideration.

Smuggling cases.

33. 7 cases of smuggling were filed and disposed of during the year under report against 4 cases in the last year.

Terwada Customs duty

34. The State has ½ share in the customs revenue of Terwada. The State maintains a separate Nakedar and a peon as is done hitherto to recover the Customs revenue at Terwada. The Nakedar recovers the whole Customs revenue and pays half of the total recovery to the Talukadars of Terwada as their share.

Transit duty

35. Transit duties have been abolished in the State. Only transit passes have to be obtained while entering the State limits at the first station (gateway). The practice of issuing such passes by Tehsildars continues but with a view to avoid inconvenience to travellers, Patels of the villages have been authorized to issue such passes in the absence of Tehsildars either on leave or on duty elswhere.

Cultivators Khata books.

36. 871 khata or receipt books were given to those Khatedars who did not possess them.

Issue of processes for the recovery of revenue due.

37. 544 orders for attachment of property belonging to defaulting debtors had to be issued and a recovery of Rs 16999-10-10 was effected during the year under report, whilst orders for attachment in 238 cases were issued which resulted in the realization of Rs. 2088-14-6 in the previous year.

This timely foresight of His Highness assuredly had its fruits in so much as to keep the fell disease at an arris length from Radhanpur Town, though Sami could not be saved from coming within the trip of this disease. Radhanpur was saved and many who at first did not like the idea of a quarantine in these days could not but thank the timely precautions of His Highness. 84. His Highness the Nawab Saheb's interest in the Education of his people remained unabated. His Highness being ever ready to do whatever is proposed in the interests of education. That progress in education may still appear to be slow is mainly due to the fact many students are still enticed to leave the schools midway owing to their parents leaving Radhanpur for other place on account of their profession as also that the parents are anxious to take them up to join some profession at work This state of things is however bound to improve gradually as the advantages are seen more & more.

The decrease in the number of students receiving instruction in te Primary schools is partly due to the fact that five of the rural schools namely Balodhau, Goshanad Vaghel, Sankeshwar and Kumawada schools remained closed during a great part of the year under report, due to the prevalence of the Influenza in the town and villages and the havoc created by it.

The total expenditure amounted to Rs. 13983-11-0 against Rs. 14560-1-1

CONCLUSION.

While concluding this Report it is only right to put on Record that the work of all the Departments has been and is being carried on in the usually smooth way; and it is all due as usual to the direct guidance and supervision of His Highness the Nawab Saheb. There was a great shortage of folder in

the State in the latter part of the year. But the foresight with which His Highness had got secured a sufficient stock of grass for the Durbar animals and the frequent goading of other cultivators to store up fodder for their cattle proved most beneficial in the way of preventing actual fodder famine in the State.
